

DELA CNC technology GmbH & Co. KG

Prototyping | Single-item Production | Batch Production | Engravings | Special-purpose Production

OUR COMPANY

Since 2009 the success of the company DELA CNC-technology has been based on continuous innovation, expertise, know-how and highest quality standards. We are reliable partners for turning, milling and drilling worldwide.

One of our strengths is short-term delivery in high quality.

The clever team around the founder of the company J. Demmelhuber finds an optimal solution for every problem and every question. We are specialized in working with all machinery materials by a support machine park. Our company offers accurate, precise, individual items and mature series parts on top.

Fast, flexible and customer-oriented! As regards production we do not leave anything to chance.

For that reason we rely only on capable machines, well - educated and experienced staff.

DELA CNC-technology is focusing on pipeline-services, electrical engineering and many other ranges.

We are the competent partners of industry and crafts. With our short set-up time guarantee fast and flexible reaction to our customer requirements and immediate delivery of spare parts is possible. According to drawings and individual specification custom-product-designs are manufactured. Uncomplicated, fast and cost-optimized.

The quality management provides consistent dimensional accuracy and reliability by different measuring tools. Optimal perfection is our claim on every delivered part.

See yourself! We are always looking for good employees. DELA CNC-technology is looking forward to you!

OUR TEAM

Manuela and Jürgen Demmelhuber

MACHINERY

POS CNC Processing center 5 axle millingmachine

CNC Lathe Mazak Super Quick Turn 250

MACHINERY

Manual lathe Boehringer

Manual lathe Colchester Bantam

MACHINERY

Milling and drilling center Reform UWF32

POS C 1150 CNC Processing center

Machinery

POS CNC Processing center 5 axle millingmachine

CNC Lathe MAZAK Super Quickturn 15 MS Mark II

Machinery

Trotec laser engraving machine
